Clarification

Drawing TCD-01, Sheet 11.

Note 11 references the requirement for PVMS boards to be installed one week prior to the road closure, and that the PVMS's will be paid for under item 619.111111. When referencing the NYSDOT Standard Specifications, the description for that item states that the PVMS's are to remain for the entire project.

This will not be needed for the project and the PVMS boards can be removed once the detour is in place. The note shall be amended to specifically state: **'The PVMS boards can be removed once the detour is in place and will no longer be needed.'** Contractors shall bid the price for item 619.111111 based on the need for only one week each.

ALL BIDDERS MUST RETURN THIS ADDENDUM WITH THEIR BID.
